Amendment No. Two (2)

National Institutes of Health (NIH), National Cancer Institute (NCI)

Office of Acquisitions (OA), Treatment and Support Branch (TSB)

Date of Issuance: August 14, 2015

The above numbered Request for Quotation (RFQ) is amended as set forth below. The hour and date specified for receipt of responses remains unchanged.

This Amendment #2 provides responses to questions received on 8/7/15, 8/11/15 and 8/12/15 as stated below. This Amendment also adds three (3) administrative actions to the RFQ package.

Inquiry 1 -

Question 1: Does [the NCI] RFQ eliminate the Leidos operating CPTAC network?

Response 1: CPTAC is transitioning from Phase II to Phase III. Some aspects of the program are changing and many of the grants, contracts and subcontracts will undergo recompetition. The NCI RFQ does not eliminate the Leidos subcontract(s). The NCI RFQ seeks to collect additional tissue types beyond breast, colon and ovary.

Inquiry 2 –

Question 1: Do you consider any inclusion of pediatric AML?

Response 1: We will NOT include pediatric AML cases.

Inquiry 3 –

Question 1: Is the no authorship clause negotiable? [Our organization] is used to a model where the TSS's are actively involved with the disease focused working groups and are contributing authors.

Response 1: Yes, this is negotiable.

Question 2: The amount of tissue and DNA from blood is twice that was required for TCGA. Are these the absolute amounts or can smaller amounts be sent?

Response 2: The amounts are larger because proteomic assays require more tissue. Until proteomic technologies are demonstrated to use less sample, the stated amounts are required.

Question 3: [Our organization] has a number of retrospective cases, can these be sent?

Response 3: At this time, CPTAC is seeking only prospective cases.
